Dante Sin

SOFTWARE ENGINEER | FULL-STACK DEVELOPER | GAME DEVELOPER

(413) 835-1898 | dantesin100@gmail.com | linkedin.com/in/dante-sin-1a2179161 | github.com/BlasianMonk

PROFESSIONAL PROFILE

Software developer and B.S. Computer Science student with experience developing, testing, debugging, and maintaining software, including professional game-development experience at Demiurge Studios. Founder of SinE Game Studios with independent projects in real-time applications, video streaming, DevOps automation, web development, and self-hosted infrastructure.

TECHNICAL SKILLS

Languages: C, C++, C#, Python, Java, JavaScript, SQL, Lua, PHP, Ruby, HTML, CSS
Software & Tools: Node.js, Express.js, Socket.IO, PostgreSQL, GitHub Actions, GitHub Pages, Bitbucket, Jira, Confluence, Trello; authentication, REST APIs, testing, debugging, source control
Infrastructure & Networking: Linux/Debian, Windows, Proxmox, Docker, NAS, VPN, VMware, VirtualBox, Azure, Azure SQL, TCP/IP, DNS, HTTP/HTTPS, SSH, SSL/TLS, SMB

SELECTED TECHNICAL PROJECTS

ReelTogether — Full-Stack Movie Streaming & Watch Parties
- Built a Node.js/Express/Socket.IO/PostgreSQL app with MP4 streaming, synchronized playback, room invites, real-time chat, independent audio, password-hashed accounts, persistent watch history and room settings.

Pixel Tavern — Multiplayer Pixel-Art Chat | Node.js, Express.js, Socket.IO, Canvas
- Developed a real-time multiplayer chat application with room messaging, player presence, synchronized movement, and interactive retro pixel-art environments.

GitHub Actions CI/CD Pipeline | GitHub Actions, JavaScript, Node.js, GitHub Pages
- Created CI/CD workflows for syntax checks, unit tests, dependency security auditing, production builds, and automated GitHub Pages deployment.

Personal Web Portfolio | HTML, CSS, JavaScript, GitHub Pages
- Designed a customizable, responsive, game-inspired portfolio with interactive navigation, reusable content, and custom-domain deployment.

Home Lab / NAS & Self-Hosted Services | Debian Linux, Proxmox, Docker
- Built and maintain a home lab for virtualization, local LLMs, Jellyfin/media and game servers, NAS storage, backups, VPN connectivity, home automation, and ongoing technical experimentation.

SOFTWARE & GAME DEVELOPMENT EXPERIENCE

Founder — SinE Game Studios | Jun 2021 – Present
- Lead programming, project management, artistic design, testing, and product development for independent game projects; integrate community feedback into iteration.
- Use Bitbucket with Jira, Confluence, and Trello for version control, task tracking, documentation, and collaboration.

Associate Software Engineer Intern — Demiurge Studios | Jul 2018 – Dec 2018
- Delivered functional software systems and collaborated with artists and designers to define and implement game features.
- Troubleshot live server operations and outages while following cybersecurity policies and procedures.

Junior Developer — University of Massachusetts Amherst | May 2017 – Jul 2018
- Implemented, tested, debugged, and maintained source code; integrated software with production hardware and collaborated across departments.
- Used Bitbucket, Jira, Confluence, and Trello to coordinate code, tasks, and technical documentation.

ADDITIONAL TECHNICAL EXPERIENCE

IT Technician — Link To VR | Jun 2022 – Dec 2022
- Installed, maintained, and repaired computers, VR headsets, servers, and software.

CNC Machinist / Operator — Cooper Machinery Services; Emerson; Valley Steel Stamp | Dec 2022 – Present
- Troubleshoot precision CNC systems, edit programs, and collaborate with engineering using drawings, blueprints, and G/M code.

EDUCATION

B.S. Computer Science — Western Governors University (WGU) | In Progress
Computer Science Coursework — Greenfield Community College | 2018–2022

CERTIFICATIONS

Google IT Certification | Microsoft Certified: Azure Network Engineer Associate & Office 365 | CompTIA A+, Network+, Security+ (Expired)
